I-TIP

PACK:

1g/strands;100 strands/pack. Usually recommend 1-2 packs for adding volume, 2-3 packs for a full head.

The stick regular specification is 1-1.3cm,The shortest stick can do about 0.7cm , can' t be too short,the hair is easy to shedding.

Features:

- I Tips are a form of permanent, individual hair extensions.
- Each strand is topped with a keratin tip that is clamped to the natural hair using micro rings or copper tubes, this gentle method requires zero heat or glue so it is less damaging to the hair.
- Adjustability: Since the hair extensions are attached to the hair with micro loops, they can be easily moved or adjusted to fit different hairstyles or adjust with natural hair growth.

Feather flex tip

PACK:

100 strands per pack ,1 grams per strand / 100 grams per pack

Features:

- **Less Harmful to Hair:** Since no glue, heat, or tape is used during installation, it causes relatively little damage to natural hair.
- **Adjustability:** Since the hair extensions are attached to the hair with micro-rings, they can be easily moved or adjusted to suit different hairstyles or adjust to natural hair growth.

Flex tip

PACK:

1g/strands;100 strands/pack. Usually recommend 1-2 packs for adding volume, 2-3 packs for a full head.

Advantage:

- Invisible: nano-ring + transparent elastic thread, making the hair extension more imperceptible and fixed more firmly.
- Less Harmful to Hair: Since no glue, heat, or tape is used during installation, it causes relatively little damage to natural hair.
- Adjustability: Since the hair extensions are attached to the hair with micro-rings, they can be easily moved or adjusted to suit different hairstyles or adjust to natural hair growth.
- LONG LASTING: With proper care, it can last for months and can be reused.

U-t pi

PACK:

100 strands per pack ,1 grams per strand / 100 grams per pack

Features:

- The keratin tip is designed to be attached to your natural hair using a specialized heat connector, which melts the keratin and fuses the extension with your own hair.
- They blend seamlessly with the natural hair, giving the appearance of longer, fuller hair that looks and feels completely natural
- Long-lasting: U-Tip hair extensions can last 3-6 months with proper care, making them a longer-lasting option.
- Natural Look: Since the hair extension bundles and natural hair are blended one by one, U-Tip hair extensions provide very natural-looking results. Bond points are small and invisible.

Micro ring

PACK:

100 strands per pack ,1 grams per strand / 100 grams per pack

Features:

- No Need to Use Glue or Heat: this means less potential damage to natural hair.
- Applied with a thin copper ring squeezed almost flat that will remain securely hidden in place in the client' s hair.
- Micro Loop Hair Extensions" require regular adjustment and tightening to keep them from loosening or falling out.
- Micro loop is a one-time use product, but the hair can be reused and can be quickly repaired into I-tip or Flat tip hair extensions using keratin.

Flat tip

PACK:

100 strands per pack ,1 grams per strand / 100 grams per pack

Features:

Flat Tip, also called pre bonded hair extensions, is a small strand of hair held together with keratin. installed using a heating element that safely melts the keratin head onto your hair.

Y-tip

PACK:

100 strands per pack, 1 grams per strand / 100 grams per pack

Features:

- No heat or glue in application, harmless to hair
- Keratin glue on top each strand is only 1g
Soft & Smooth
- No Glue, Heat, Or Tape: Like other Micro Link hair extensions, "Y Tip Hair Extensions" do not require the use of glue, heat or tape, therefore reducing potential damage to natural hair.
- Natural Effect: The flat design of the "Y Tip" allows the hair extension to blend more naturally into natural hair, providing an almost imperceptible effect.
- Adjustability: Thanks to the use of micro-rings, the "Y Tip Hair Extensions" can be adjusted as desired without having to be completely removed and reinstalled.

Nano hair

PACK:

100 strands per pack ,1 grams per strand / 100 grams per pack

Features:

- The bonds use a small metal tip that allows the attachment of a nano ring, which allowed to match the root of the hair for a seamless and direct blend.
- Small and invisible: Due to the very small size of the nano ring, "Nano Ring Hair Extensions" are less noticeable than other types of hair extensions.
- Less Damage to Hair: Because no glue, heat or tape is used during installation, it is relatively less damaging to natural hair.
- Adjustability: Since the hair extensions are attached to the hair with micro loops, they can be easily moved or adjusted to fit different hairstyles or adjust with natural hair growth.
- Long Lasting: With proper care, "Nano Ring Hair Extensions" can last for months and are reusable.

Tape in hair

PACK:

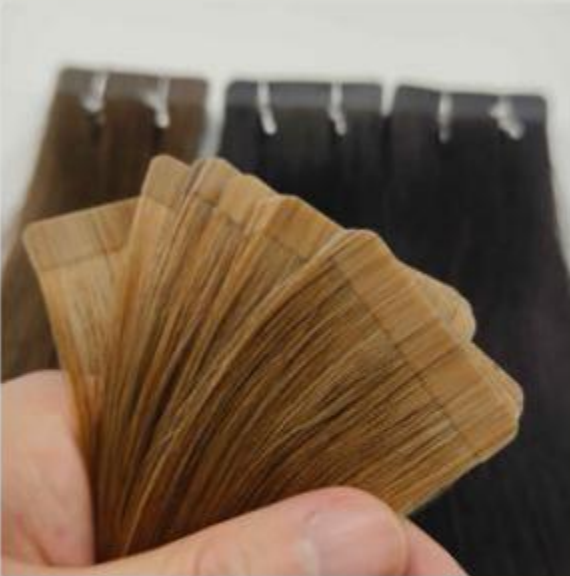

40 Pcs per pack

2.5 grams per Pcs / 100 grams per pack

1.5" width per Pcs

Features:

- Anti-allergy, non-toxic and odorless, soft, and skin-friendly. Tough and strong, reusable.
- Tape in hair extensions is one of the most convenient hair extension methods, easy to install and remove.
- Invisible: thin, transparent tape, perfectly hidden in hair.
- Adhesive Guarantee: thin, transparent tape, perfectly hidden in hair.

Invisible tape

PACK:

40 Pcs per pack

2.5 grams per Pcs / 100 grams per pack

4*0.8cm of the normal tape, the long length hair can do 4*0.6cm each piece to avoid one piece tape hair getting too thin.

Features:

- Using imported Italy glue, safe & healthy, soft & comfortable, vivid & invisible
- Safe for all hair types, can be used repeatedly, easy to maintain
- The hair is like growing from your own scalp with injection method, its more natural when installed. Safe for all hair types Easy to maintain
- Invisible tapes are made from a thin, transparent material with the hair injected into it so it appears to be growing from it. Once applied the hair appears to be growing from your scalp. This means they are less noticeable than regular tapes which can be harder to hide.

Semi invisible tape

PACK:

100g (4cm*1cm,2.5g/each piece,40 pieces)

Features:

- Same price but more invisible than regular tape; Lower price & shorter production time than injected tape
- The invisible part can be only 0.2cm, nearly same invisible with injected tape
- Semi-Invisible tape tab technology(between classic one and hand-tied)
- Best for all hair types and fine or thinning hair
- The hair is hand sewn directly into the tape itself, giving the illusion that the invisible tape-in hair extensions are growing straight from your scalp. No tape can be seen where the tape hair has been attached, making it look absolutely seamless and completely undetectable, just like your own hair!
- Designed to mimic hair growing from the scalp
- NON-damaging, lightweight, and comfortable in the hair

G-tape

PACK:

4g per Pcs , 40g/pack 64g/pack 80g/pack 96g/pack

Features:

- Can be cut any size,Seamless,thin hair edge
- Same looking as invisible tape in ,but more durable
- Same looking as invisible tape in ,but more durable
- 4g/pc can make you apply fast and give volume looking
- Production time is much shorter than invisible tape in
- Price is much lower than invisible tape in

Regular tape in

Invisible tape in

Semi invisible tape in

G-tape

Thread tape in

PACK:

Special specification 5.2cm*0.7cm , 2.5g-3.5g/pieces

Features:

- Faster install than regular tape in, it's more flexible than regular tape
- More comfortable feeling like your own hair & invisible looking
- Good Hair Quality, More comfortable feeling like your own hair & invisible looking
- Added thread to strengthen the hair, making it stronger and more durable
- Solid and durable than other tape in and no shedding
- Added thread to strengthen the hair, making it stronger and more durable
- New trends to help you attract more clients
- Same delivery time with regular tape in

Mini tape

PACK:

Usually 2.5g/pc (also if you want other weight ,we can make according your demand)

Features:

- Compared with traditional tape in hair extensions, Mini tape in hair extensions has smaller tapes, and the installation time will be slightly longer, but the shaping effect will be better.
- There will be no sharp corners piercing the scalp, and it also avoids the embarrassment of exposed tape.
- Better for Thin Hair: Mini Tape-in Hair Extensions are better for thin or short hair because the tape is smaller. They hide better in the hair and are less visible.
- Precision Styling: Because Mini Tape-in Hair Extensions can be positioned more finely, they can be used to create more detailed hairstyles and styles.

Machine weft

PACK:

100g/pack

Features:

- The tracks are thicker and more durable than hand-tied wefts.
- Shorter manufacturing time
- cut be cut anywhere

Hand tied weft

PACK:

one roll is 12g-20g ,depends on the hair length
6-8 rolls to one pack,but one roll is 11.5inch

Features:

- Hand-tied hair extensions often look more natural than machine-made hair extensions. Because they are handmade, they better mimic natural hair
- Thinner and Lighter: Hand-tied hair extensions are usually thinner than machine-made hair extensions, which makes them feel more comfortable on the head and less noticeable

— Handtied weft —
Thin and slim top,Natural and comfortable

Genius weft

PACK:

50g-80g per pack, depends on hair length

One weft per pack

Each weft is 32" width(80cm)

We recommend using 1-2 packs for added thickness and 2-3 packs for the full head.

Features:

- No returned hair (no short hair): avoids scalp irritation and hair tangles.
- Can be cut and docked: the weft can be cut indefinitely, and the hair will not fall off from the weft yarn; if the length is too short, the two wefts can be fused after heating. These two features make it very suitable for custom installation.
- Thin, flat, and light: making it an incredibly invisible weft.

Volume G Weft

PACK:

recomend weft length 30inch
weight/pack 120g-150g depends on hair length

Features:

- Cutting Guidance: You can cut our wefts to any desired length. We recommend cutting in segments of at least 4 inches wide to maintain the weft's structure.
 - Product Advantages
 - 1 roll Volume G Weft = 3 rolls Genius weft
- Invisible
Light & Soft
Can Be Cut
Cuticles Intact
No split end

Genius weft with hole

Pack :

100g/pack 80cm

Features:

- Apply with micro beads, No heating or glue is required during installation, and there is no harm to the hair.
- Can be cut any size, Seamless, thin hair edge
- lighter than twin tabs

Twin tabs

Pack:

10g/pc 10 pcs to one pack

Features:

- The Polyurethane top securely holds the hair in place to prevent shedding, is flexible and super thin against the client' s head.
- The injection moulding on the outside mimics the hair growth so they are less visible in the hair and six pre-cut circles allow for working with 3.5 mm Silicone Rings for the attachment.
- Twin Tabs is also called Twin Tab Weft: This hair extension is made of two pieces of tab weft folded; they are very easy to install and have a lusher appearance. No heating or glue is required during installation, and there is no harm to the hair.

XO weft

Pack :

customized weft length ,recommend length 11inch

Features:

- The Polyurethane top securely holds the hair in place to prevent shedding, is flexible and super thin against the client' s head.
- The injection moulding on the outside mimics the hair growth so they are less visible in the hair and six pre-cut circles allow for working with 3.5 mm Silicone Rings for the attachment.
- XO weft is similar to Twin Tabs, but XO weft is only with one side of injected PU ,another side is regular PU weft with hole

Volume weft

PACK:

100g/pack

Features:

- Narrower thinner softer more comfortable no tangle
- can be cut everywhere more comfortable
- its made with 3 layer of wefts so it give really high volum looking.
- Whether you have thin, medium-density, or thick hair, volume weft extensions are designed to blend seamlessly, creating a natural and voluminous look.

Mini Volume weft

PACK:

100g/pack

Features:

Thinner than volume weft

- It's made with 3 layers of wefts. So it gives really high volume looking. When you need 3 rows of regular wefts, you only need 2 rows of mini volume wefts
- Very invisible when you wear it
- The hair not dry after washing
- Thinner than volume weft

Flat weft

PACK:

50 grams per pack
One weft per pack

Features:

- It is characterized by a weft like a flat ribbon, wider and flatter than ordinary hair weft, and they have no short hair.
- The polyester-treated hair weft is waterproof and oil-proof, which can keep clean and fresh during wearing, and the hair is not easy to fall off from the weft and can maintain a long service life.
- flat weft can be single layer or double layer, when you want weft to be soft , then choose one layer, if you want it to be fuller , then choose double layer

Halo hair

PACK:

60-150g /pc

Features:

- Halo Hair Extension is a temporary hair extension, which consists of a transparent PE thread (adjustable, thick, and soft) and a large piece of hair (composed of hair wefts, covered with lace on the inside, and sewn with clips).
- It is very easy to wear and only takes 2-3 minutes

Clip in hair

Front

Back

PACK:

Pack: 7 Pcs/pack

1 x 8" wide with 4 clips.

2 x 6" wide with 3 clips.

2 x 4" wide with 2 clips.

2 x 1.5" wide with 1 clip.

100g-250g depends on hair length

Features:

- Strong double weft machine made
- Soft lace more comfortable wear, Natural Texture Health bouncy High elasticity
- Normal Clip-in Hair Extensions are the earliest clip-ins. They are simple in structure (made up of double wefts and clips) and easy to maintain, requiring no special attention.
- They are a good choice for those who want to change their hairstyles quickly, economically, and innocuously.

PU Clip in Hair Extensions

🌟 Seamless 🌟 Natural 🌟 Skin-Friendly

PU clip in hair

Pack:

7 Pcs/pack

1 x 8" wide with 4 clips.

2 x 6" wide with 3 clips.

2 x 4" wide with 2 clips.

2 x 1.5" wide with 1 clip.

Custom specifications 100-250g ,depends one hair length

Features:

- Easy to install and remove
- High elastic clip
- Cause zero damage to your natural hair
- Seamless Natural Natural
- High Quality Glue
- Seamless PU Weft , Skin-Friendly, Top Glue Color is Similar to SkinTone
- Fits the Scalp Better and More Firm
- more invisible&natural
- have all the advantage of regular clip in

Seamless clip in

Pack:

3-7pcs for one pack
100-250g depends one hair length

Features:

- PU Clip-in Hair Extensions, also known as Seamless Clip-in Hair Extensions.
- Its main feature is that it does not use hair wefts but uses polyurethane (PU) edges. This PU glue is a translucent solid soft glue that is almost invisible when applied to the hair, thus providing a more natural and streak-free finish.
- seamless clip in is thinner more narrow
- super thin track, the thickness is only 0.78cm
- invisible looking & comfortable feeling

PU Clip in

Clip in

- No return hair
- More comfortable
- More invisible and natural

VS

Seamless clip in

Regular clip in

VS

- Thinner
- More narrow

Pony tail

Pack:

Custom specifications 100-150g

Features:

- Ponytail Hair Extension is a temporary hair extension consisting of a bundle of hair and a set. It can be easily fixed on your ponytail, making your ponytail thicker, longer, and more youthful.
- The extension is equipped with a Velcro base for secure attachment. It also includes an extended hair strip that wraps around the base, creating a seamless look when secured with matching bobby pins.

Hair bulk

PACK:

50g-100g /pack

Features:

- Bulk Hair refers to bundles of human hair without any attachments or additional equipment (such as clips, tape, keratin, etc.).
- This type of hair is mostly used for making various extensions (Tape-ins, Micro-rings, I-tips, Flat-tips, etc) or braiding.
